

# Tweety's Pomeranians

## *Sales Contract*

---

Your new Pomeranian must be taken to a licensed veterinarian within 72 hours of picking him/her up from the airport or breeder. If after being checked by your veterinarian and there are any concerns you have 24 hours to notify seller. The veterinarian must supply a written diagnosis. There will be no refund of veterinarian bills, shipping bills, or transportation bills. We do not offer monetary refunds but will replace the puppy with the next available Pomeranian in same price range.

Your new Pomeranian is guaranteed to be free of hereditary defects. If a hereditary defect is found within the first year of your Pom's life we will replace it with another Pom of equal value as soon as one becomes available. Hereditary defect must be proven with a written diagnosis by a licensed veterinarian and/or any related proof of the defect. In the unlikely event your Pomeranian expires you must furnish autopsy results before any action is taken.

All Poms are up-to-date on shots, including rabies, age permitting. They are also up to date on all worm treatments. Your new Pom will be checked by a veterinarian before leaving for its new home.

We do not guarantee the size of a Pom although I will give you my best estimate as this is all any breeder can do.

All puppies must be 8-10 weeks old before shipping. Our preferred shipping method is through ShuttlePet LLC Ground Shipping. Shipping via airline is approximately \$250, although this is only an estimate and may fluctuate with the economy.

For all Poms registered with full AKC registration you are required to use our kennel name "Tweety" preceding their name. For example, "Tweety's Your Name Here"

*In the event of a legal dispute all matters will be handled in our jurisdiction, Jackson County, Alabama.*

*A Pomeranian is not for everyone so please do your research before purchasing. Please give them lots of love and in return you will be rewarded with the most devoted pet that you could every think possible!*

**GOOD LUCK & GOD BLESS!**

Dear Puppy Buyer,

I highly recommend NuVet Plus.

More than 250,000 dogs and cats are using NuVet to **protect against most ailments**

(from back yard pesticides, pet food allergies and hormones, toxic formaldehyde in furniture and carpeting, ailments transmitted from dog parks and the vet's office, etc),

while maintaining a **beautiful skin and coat**.

This is not just a vitamin. It's an **immune system builder** with a precise balance of vitamins, minerals, omega fatty acids, amino acids and high-potency antioxidants.

That's

why it works so well through all three stages of a dog's life.

\_ **For younger dogs** (under 2 years old), it strengthens their immune system, while building and strengthening the cardiovascular, skeletal and nerve systems.

\_ **For dogs in their prime** (age 2-8), it improves the luster of their skin and coat while protecting against allergies, skin and coat problems, staining from tears, digestive problems, etc.

\_ **For older dogs** (over 8 years old), it helps reduce and eliminate arthritis, tumors, premature aging, cataracts, heart conditions, diabetes and many types of cancer, while extending the life and improving the vitality of many dogs.

We highly recommend NuVet Plus to keep your pet on the path to perfect health!

It's not

available in stores, and is only available to the general public with an order code from an

authorized pet professional.

For your convenience, you may order directly from the manufacturer (at up to 50% off

what most veterinarians charge) by **calling 800-474-7044** and using **Order Code: 56342**

**or ordering online** at [www.nuvet.com/56342](http://www.nuvet.com/56342) . By using autoship you can save an additional 15%.

To the long life and health of your puppy!

Brenda Hill
